

# Consulting Services

CAPSA actively collaborates with organizations, communities, and systems, resulting in substantial improvements in people's health concerning substance use. CAPSA's team of educators, researchers, and policy experts, informed by their professional expertise and lived experience, are dedicated to eliminating systemic stigma. By delivering evidence-based solutions, CAPSA works to ensure equitable access to knowledge and services for all individuals. This unique approach removes systemic barriers for people and brings positive change to organizations and systems to become inclusive, effective, and compassionate while improving Substance Use Health.

Elevate your organization's Diversity, Equity and Inclusion work with CAPSA's Stigma Consulting Services. Our consulting professionals deliver evidence-based solutions, informed by our lived and living expertise. We implement a variety of tools developed in-house, that are designed to help organizations promote equity for people's Substance Use Health across diverse contexts. CAPSA is an organization known for being effective, dedicated and action oriented.

## Some of the services we provide include:

✓ Input to Advisory & Steering Committees
